2120 Leon Guinto St., 1004, Malate, Manila, Philippines

# WHO WE ARE

United Marine Training Center (UMTC) is the product of more than two decades of pursuit of training excellence and innovation in the maritime sector.

Established in 1998, we trace our humble beginnings in a single lecture room doubling as the office and another room for culinary training. In 2004, we expanded our operations to further fulfill the growing need for well-trained seafarers. We finally moved to our present site in the heart of Manila in 2008, providing training for up to 40,000 seafarers annually.

We keep expanding, enhancing, and improving to continue providing world-class training and developing seafarers as highly competent marine professionals prepared to face the challenges of the shipping industry.
